THE TAMIL NADU ACCOUNT CODE

VOLUME II

Treasury Accounts and Classification

FIFTH EDITION

Corrected upto 30th June 1992

PREFACE TO THE FIRST EDITION.

The preface to Volume I gives a general description of the Madras Account Code. The Directions in Volume II have been divided into two parts. Part I sets out the scope of the directions and defines certain terms used in this Volume. Part II lays down the methods and principles according to which treasuries should keep their accounts and render them to the Audit and Accounts Offices. The whole of Part III of Volume II of the Auditor-General's Account Code (which relates to the accounts of Small Coin Depots) and certain portions of Parts I and II have been omitted as they, relate solely to Central transactions. The omissions have been indicated by asterisks.

2. The several Chapters in Part II have been so arranged as to distinguish from one another, (i) Directions of the Auditor-General, regarding classification, which are generally speaking, mandatory, (ii) Directions regarding the form of the accounts to be kept, which the Government may moulfy in matters of detail in consultation with the Accountant-General and (iii) Directions regarding the form of the Accounts Return in which chapters required in view of the local conditions may be authorized by the Accountant-General.

Certain portions of Chapters III and IV in Volume II of the Auditor-General's Account Code do not apply to this State because the sub-treasuries in this State render classified accounts to the district treasury and the district treasury to the Accountant-General, which is not done e'sewhere. "Local Rulings" to accord with the special procedure in this State, based on the rules in the old Tamil Nadu Treasury Code and the Tamil Nadu Pinancial and Account Code have been incorporated in the relevant places. Those Articles of the Auditor-General's account Code which are wholly inapplicable to this State for the above reason have been omitted in order to avoid confusion, and the omisions have been indicated by asterisks.

3. In order to distinguish the Forms prescribed in this Volume from those included in Volume III, the Forms in this Volume have been described as T. A. (an abbreviation for Treasury Accounts).

تحدث فياره والأهدائات

In addition to the Forms prescribed by the Auditor-Gereral, some Forms in the Tamil Nadu Treasuly Code and the Tamil Nadu Financial and Account Code have been included in this Volume in order to provide for local variations in accounts procedure and their matter Forms should be deemed to be Forms prescribed by the Government in consultation with the Accountant-General. Medifications have been made in some of the Forms prescribed by the Auditor-General on account of local variations in accounts procedure. The Forms prescribed by the Auditor-General have been given Arabic numbers, while those prescribed by the Government have been given Roman numbers and added at the end (i.e. after all the Forms prescribed by the Auditor-General The distinguishing letters and numbers given to the Forms included in this Code will also be adopted for the purpose of preparing, indents for the Forms.

Since the issue of Fourth Edition, several amendments have been issued to the code. Consequent on the departmentalisation of Central Government transactions with effect from 1st October 1976, the Central Government drawing officers ceased to draw bills at the State Treasuries. Likewise, there will be no receipt transactions relating to the Central Government. Each treasury and sub-treasury will acknowledge immediately the receipt on each day of the pass book tendered to it on that day along with the scroll for the preceeding day and the number of chalans and vouchers supporting the entries in the scroll, and will have the whole of that day therafter for completing the scrutiny of that pass book along with the scroll and the chalans and vouchers. The pass book as scrutinised at the treasury or sub-treasury should be returned positively on the succeeding day to the agency branch, either with the signature of the treasury or sub-treasury officer or with a memorandum indicating the corrections which are required to be made. - (viii) The treasury officer will submit the consolidated monthly statements referred to above in sub-paragraphs (vi) and (vii) to the Accountant-General by the 10 of the month, succeeding the month to which it relates. The date-wise monthly statement for March for which bittle extension of time is necessary should be sent not later than the 8th of the succeeding month by the sub-treasury officer and the 15th of the succeeding month by the treasury officer.

- (x) After this check, Government Accounts Department, State Bank of India will compile the monthly statement as also statement showing date-wise and branch-wise receipts and payments for the month and will despatch the monthly statement and branch-wise statements so as to reach Central Accounts Section of the Reserve Bank of India, at Nagpur not later than 15th of the succeeding month in the case of all months other than March (the statement for the month of March should reach the Central Accounts section of Reserve Bank of India by 20th April) Central Accounts Section, Nagpur will compile the monthly statements of transactions (both consolidated statements and of date-wise branch-wise receipt and payments for the month) in respect of other public sector banks. The Reserve Bank of India, Central Account Section, Nagpur will thereafter forward the consolidated monthly statements along with the relative monthly statement of transactions effect by branches of agency banks to the respective Accountants-General, etc., by the 25th of the succeeding month in the case of all months other than March and by the 15th May in case of March.
- (xi) The Reserve Bank of India, Central Accounts Section, Nagpur will continue to carry out adjustments reported by agency banks even after the relative monthly statements are rendered. However, Central Accounts section will maintain branch-wise cards for each month where in the transactions of the respective State and Central Governments as reported to the Accountant-General in the monthly statements and the adjustments carriedout by them subsequent to the submission of the monthly statement will be recorded.
- (xii) The Accountant-General after verifying the figures reported by the Central Accounts Section in their monthly statement and the subsequent adjustments, if any, advised by Central Accounts Section will prepare and forward to Central Accounts Section, Nagpur a branchwise list of discrepancies in the form in Annexure 'D' indicating the branch-wise amount to be reconciled duly supported by the relative monthly statement of the branch concerned, certified by the treasury, sub-treasury officer.
- (xiii) Reserve Bank of India, Central Accounts Section, Nagpur will on receipt of the list of discrepancies from the Accountant-General concerned arrive at the net difference to be adjusted in the Government Accounts by comparing the figures of the receipt/disbursements as per-

the certified date-wise monthly statement of the branch received from Accountant-General with those already adjusted by it in Government Accounts on the basis of advices received from the link office of the agency banks concerned. The difference between two sets of figures will thereafter be adjusted by the Central Account Section in Government accounts by Contra debit/credit to the concerned banks' accounts, underadvice to the Accountant-General concerned.

- (xiv) Once adjustment as above is made by Central Accounts Sections in respect of a branch of agency bank for a particular month, Central Accounts Section will not make any further adjustments in respect of that branch for that month.
- (xv) For expeditious settlement of discrepancies, the Accountant-General should furnish to the Central Accounts Section, Nagpur, the list of discrepancies of a month immediately on receipt of the relative monthly statement from the Central Accounts Section Nagpur and in any case before the end of the financial year succeeding the financial year in which the transactions have taken place.
- (xvi) It often happens, because of strikes or other difficulties at the branch of an agency bank, that the books of the branch remain unbalanced for many days. As the daily statements of receipts and disbursements on Government accounts as prepared by the branch and entered in the pass book may in such circumstances be provisional. an initial error or omission in the daily statements as turnished to the treasuries and to Reserve Bank of India might have to be rectified subsequently by the agency bank. In these case, as well as in other cases involving clerical errors, in order to facilitate the scrutiny of the relevant transactions and the reconciliation of balances, the branches should introduce a separate scroll (error scroll) and a separate pass book(error pass book) for the adjustment of entries which have already been made earlier in the relevant pass books for the Central or State as the case may be. After the entries in the error pass books have been checked by the concerned treasury or sub-treasury officer, they can be incorporated in the relevant date-wise monthly statement.
- discrepancy when checked with the daily statement of a branch reveals any discrepancy when checked with the daily statements from the same branch with reference to which a monetary settlement has already taken place. The discrepancy should be advised by the Government Accounts Department, Inter-Office Accounts/Link office as the case may be, to the concerned branch which will then make the necessary entries in the error scroll and error pass book f[vide sub-paragraphs (xvi) above]: In case the monthly statement for the relevant month has already been prepared and sent by the branch to Government Accounts Department, Inter-office Accounts of the SBI or the Link Office of the public sector bank the adjustments will also be reported by the branch to Government

Accounts Department. Inter-Office Accounts/Link office as the case may be in a supplementary monthly statement clearly marked "Errors and Omissions—Adjustments on account of transaction already Cleared" and Government Accounts Department Inter-Office Accounts/Link office in turn will forward the statement after scrutiny to the Central Accounts Section of the Reserve Bank of India at Nagpur in addition to the usual daily statement. Each supplementary statement will be certified by the treasury or the sub-treasury officer as the case may be. A copy of this supplementary statement clearly marked "Errors and Omissions—Adjustments on account of transactions already cleared" will also be sent at the same time by sub-treasury and treasury officer to the treasury officer and Accountant—General as in the case of any other statement.

(xviii) As the agency bank is not concerned with the misclassification or the wrong description of any item, so long as the transactions which has been put through and reported by it is itself bonafide, except to the extent that consolidated statements in respect of the Central (Rallways) Central (Defence) Central (Posts and Telegraphs); Central (Telecommunications) Central (Others) and State (including transactions on account of other States) are to be furnished by it, the error scroll or error pass book should be used by the bank only for correcting any misclassification or wrong description which may affect the consolidated accounts under the heads mentioned above as already furnished, and not for carrying out inter-governmental adjustments. Such inter-Governmental adjustments will be made only by the Accountant-General on being reported to them by the treasury Officers.

The procedure which has been indicated above for the reconciliation of the receipts and payments on Government account, which are cleared with the agency banks will be introduced for the time being in respect of transactions originating at the treasuries and sub-treasuries or. Pay and Accounts Offices. In respect of transactions, which do not enter the treasury or sub-treasury accounts or the accounts maintained by Pay and accounts Officer which are rendered directly to departmental. Accounts officers and the Accountants General, the question of introducing a similar system for reconciliation of the receipts and payments as cleared with the agency banks will be considered later at an appropriate stage.

- 4. The following are some of the more important deties to be fulfilled by the Treasury Officer (or Sub-Treasury Officer at a Sub-Treasury) before closing the accounts for the day:—
- (1) The Accountant's day book, the Treasurier's (or Cashiers in a sub-treasury) balance sheet, the subsidiary registers, of receipts and payments the vouchers and chalans and the number book should be laid before him, and he should perform the following checks:—
- (i) He should check every chalan with the entry in the number book and see that every credit entry in the number book has been brought into account in the prescribed subsidiary register or the day book, as the case may be as each item is checked, he should tick off the entries in the subsidiary register and the number book corresponding to the chalan or bill. He should initial each entry in the subsidiary register as it is checked—see subsidiary rule 11 (a) under Treasury Rule 10.
- (ii) In the case of Non Banking Sub-Treasuries, the Sub-Treasury Officers shall cominue to maintain the number book for payment transactions while the Double Lock Officers who are equally responsible for the Sub-Treasury transactions shall maintain the number book in respect of receipt transactions and also sign the chalans acknowledging the receipt of the money. The receipt number book prepared by the Double Lock Officer shall be checked by the Sub-Treasury Officer at the end of the day with reference to the duplicate chalans by initialling each item of receipt and close it for the day over his signature after agreeing it with the Shroff's Cash Book and Day Book.

Note.—The number book in a treasury dealing with the Bank exhibits only transfer transactions taking place at the treasury. The entires of each and transfer transactions in the Bank's daily sheet should be ticked off in the same way as is done in the number book as entries are. made in the subsidiary registers or day book, and need not be copied in the number book. - (ii) He should compare each entry of the payment in the Accountant's Day Book or a subsidiar y register with the corresponding order—See Subsidiary Rule 32 under Treasury Rule 16 and tick off each voucher and the entry as it is compared. (This will not be necessary if the Treasury Officer adopts the alternative plan of having the account entry presented to him for initials at the same time as he signs the order for payment). If any portion of the vougher is paid by transfer, he should see that there are corresponding debit and credit entries in the Transfer columns of the register and should tick off each pair of entries.
- (iii) He should see that the totallings in the Subsidiary Registers have been correctly made and carried to the day-book, initialling the totals and ticking off the entlies in the day book as be thus compares them. This must be done, in the case of receipt registers, even when the total for the day is blank; but it is not necessary to initial blank payment register. If the number of blank receipt registers is great, the following plan may be adopted. Such registers, as are only, rarely required for making entries may be bounded in a single volume and kept under the Treasury Officers own look. When the volume is required for making an entry, he should give out the register for the purpose, and he should receive it back at the time of signing the daily accounts carefully seeing in doing so that all new entries in it are correctly carried to the daybook, and initialling them accordingly. It is obvisouly necessary to guard against fraud or mistake in omitting to bring an entry from these registers to the day-book; and this procaution is not complete, if the Treasury Officer examines only those registers from which an entry has been earried to the day-book.

Note.—As a result of rules (i) to (iii) above every entry in the day-book should be checked and ticked off by the Treasury (or Sub-Treasury) officer.

(iv) He should check the correctness of the totals and of the opening balance in the day-book.

Note.—In a District Treasury, the Treasury Officer may have the totallings of the Accountants day-book verified by some Principal Subordinate Officer other than the Accountant, who should initial them as correct.

(v) He should see twice a weekthat all the vouchers are properly arranged—See Local Ruling 15 under Article 95-99 in Chapter IV.

CHAP, III ACCOUNTS TO BE KEPT AT TREASURIES [Arts. 50-54

 - (i) that no uncurrent coins are left in charge of the Treasurer,
- (ii) that no more small coin is so left than is actually required for current use, and
- (iii) that the whole balance in sole charge of the Treasurer does not exceed his current requirements—see also subsidiary rule 3(b) under Treasury Rule 11.

NOTE.—In a sub-treasury the Sub-treasury Officer should similarly verify the cash balance and stamps under single lock and check the cashiers balance sheet before signing the cashiers cash book—see also subsidiary rule 8 (g) under Treasury Rule 11.

- 5. The treasury Officer (or Sub-Treasury Officer) in a sub-treasury should sign the Treasurer's (or eashiers in a sub-treasury) balance sheet on the evening of the day itself to which it refers, after it has been compared and agreed with the Accountants books before closing the treasury for the day. When, however, the pressure of work in a district treasury renders this impossible, the comparision with the Accountant's books may be postponed till the following morning, except on days proceeding gazetted holidays when the Treasury Officer should see to the reconciliation before the office closes. When the comparision is postponed under this rule, the certificate, over Treasury Officer's signature at the foot of the Treasurer's balance sheet should be altered in manuscript by cancelling the words "Agreed with 'the Accountants day book and" before the form is signed by the Treasury Officer, which must be before the closing for the day. The Treasury Officer should then sign an additional certificate in the form "Agreed with the Accountant's day book" to be added in the book on the following morning.
- 6. The daily account of the Bank transacting the cash business of a Treasury may, with the concurrence of the Accountant-General, be sent to the Treasury or Sub-Treasury Officer on the morning of the day following that to which it relates. - (1) When each deposit is separately paid into and drawn from the treasury upon documents passed by competent authority and setting forth the particulats necessary for the entries in the deposit registers; the accounts of Civil and Criminal Court Deposits should be kept in the manner prescribed in Ariicles 64 to 67 for revenue deposits, although the sets of registers and returns should all be separate from those of the revenue deposits proper.

Accounts to be kept at Treasuries. [Art. 89.99

89. Deleted.

Section 5.—Miscellaneous Accounts.

90. In every treasury from which revenue advances are made, one or more plus and minus memoranda (Form T.A. 46) should be kept in which the advance should be debited and all recoveries credited. One of these plus and minus memoranda should be the ordinary account of revenue advances: and other special accounts may be opened from time to time for any special officers authorized to make such advances, who may, under the orders of revenue authorities, keep and submit accounts separate from the accounts of the district officer. Unless the Government require otherwise, the treasury shall keep no detailed accounts of these advances.

NOTE.—An advance held to be irrecoverable by the revenue authorities should be wrirten off the treasury plus and minus memorandum under the authority of the Accountant-General; any subsequent recoveries should not affect the treasury plus and minus memorandum but should be taken direct to revenue.

Local Rulings under Article 90.

- 1. In Tamil Nadu the treasury keeps plus and minus memoranda for the following classes of advances and other recoverable a mounts:--
- (i) cost of survey of estates not under the management of the Court of Wards.
- (ii) advances to cultivators made by officers of the Revenue Department, the Agricultural Department and the Industries Department.
 - (iii) imprests for minor irrigation works.

- (iv) survey advances, (v) advances under Special Laws, and
- (vi) miscellaneous loans and advances.
- 2. Cost of survey of estates not under the management of the Court of Wards.-The Treasury Officer should maintain a plus and minus memorandum for each estate for watching the amounts deposited, the expenditure recoverable and the balance available. He should enter in the debit column the amount shown in the Survey Officer's monthly bills for recovery from that estate and in the credit column the amounts already recovered. The balance on account of each estate should be

worked out monthly so as to see that sufficient funds remain to cover

CHAP. III

the anticipated further expenditure. If at any time it is found that the balance is insufficient, prompt intimation should be given to the officer in-charge of the survey of the estate to enable him to call for a further deposit from the Proprietor and stop the survey in default of payment.

3. Advances to Cultivators.—In every treasury from which advances to cultivators have been made, a plus and minus memorandum should be kept for each class of advance. In it the amount of each advance should be debited and each recovery credited. One of these plus and minus memoranda should be the ordinary account of advances to cultivators. Other special accounts should be opened from time to time for any special officers authorised to make advances who may. under the orders of the revenue authorities concerned, keep and submit accounts separately from the general accounts of the Collector.

Every Government servant who is authorised to make advances should see that the debits and the credits made to his account in the plus and minus memoranda correspond accurately with those which enter his own registers and returns. All departmental officers should obtain from the treasury a copy of the plus and minus memorandum, with which he is concerned Special care should be taken to see that when any recovery is paid into the treasury, the amounts of principal and interest recovered are shown separately and distinctly. recovery towards principal should be credited both in the plus and minus memorandum and in the treasury account, while the recovery of interest should be credited in the treasury account alone.

Advances to cultivators made by the Director of Industries and Commerce and the Director and Deputy Directors of Agriculture on account of pumping installations and agricultural implements should be debited in the plus and minus memorandum (but not in the body of the treasury account) on receipt of the intimations from the Accountant General. Repayments received by the treasury on account of such advances should be adjusted in the plus and minus memorandum in the manner prescribed in the previous sub-paragraph.

The departmental officers of the Revenue Department are responsible for maintaining the accounts and furnishing the returns relating to advances to cultivators as prescribed in the Takkavi Manual. They are posted from the Tahsildars' return of advances and recoveries. They should be reconciled with the plus and minus memorandum in the treasury. With a view to securing agreements between the departmental accounts and the *plus* and *minus* memorandum, the Collector should see that the totals of the figures entered in the two sets of accounts actually relate to the transactions up to the dates on which the accounts of sub-treasuries and the district treasury were closed.

With every return of "Advances to cultivators" sent to a superior Revenue Officer, a memorandum should be submitted setting forth the figures of the treasury plus and minus account and agreeing them with the figures in the return.

4. Survey Advances.—The treasury should maintain a separate plus and minus memorandum for each survey party for advances under the head "Revenue advances—Revenue survey advances—Survey officers'?

A plus and minus memorandum should also be kept in the treasury for the head "Revenue advances—Cost of survey marks—Survey officers—No. Party" for watching the amounts recoverable by Collectors. When advances are drawn in one district on account of survey operations in another district, the Collector should on receipt of the monthly cost rate statement in duplicate from the Survey Officer, forward one copy to the Treasury Officer of his district and the other to the Collector of the district in which the survey operations take place. The Collector of the latter district should work out the demands and effect the recoveries, and the debit of the advance should therefore be made in the plus and minus memorandum of the treasury of this district, quoting reference to the advice from the other Collector. The debit in the treasury account should, however, be made in the district in which the advance was drawn.

5. The provision in Local Ruling 3 regarding the submission of a memorandum giving the figures of the treasury plus and minus account with every return f "Advances to cultivators" sent to superior officer, applies also to "Survey advances".

In order to avoid differences between the administrative accounts and the treasury accounts under all classes of survey advances, the departmental officers should see that their accounts are compared monthly with those of the treasury and take the necessary steps for the removal of differences between the two sets of accounts.

6. When any advances becomes irrecoverable, it should be written off the plus and minus memorandum in the treasury under the orders of the Accountant-General after the competent authority has sanctioned the write-off from the accounts. It should nevertheless be registered by the departmental officer concerned in a separate account or record

in order that any possible eventual recovery may be made. If any covery is m der fter an edvence has been written off the Plus and minus rememorandum, it should be credited as revenue in the treasury account, but should not be credited in the plus and minus memorandum.

- 91. In addition to the registers prescribed in the foregoing Articles, the following subsidiary registers should be kept for the record of transactions specified against each. Separate registers should be kept, where necessary, in State treasuries for transactions relating to the Central Government:—
- (t) Register in Form T.A. 31 for the record of advances (other than those mentioned in Article 90) made/recovered under the heads "Loans and Advances" and "Advances Repayable".

(ii) * * * *

(iii) Register in Form T.A. 33 for payments of Pensions, Separate registers should be kept for different classes of pensions, such as pensions debitable to "2075. Miscellaneous General Services—101. Pension in lieu of Resumed Jagirs Lands, Territories, etc., and 2071. Pensions and other Retirement Benefits", Assignments and Compensations, etc. Separate Registers (subsidiary) in Form T. A. 33-A should be maintained by all Treasury officers for each class of other Foreign Government pensions paid in Tamil Nadu State.

(Memo No. 18755/Codes 59-1, dated 30th April 1959.)

- (iv) Register in Form T.A.34 for payment of coupons on Bearer Bonds.
- (v) Register in Form T.A. 35 for payment of interest on Promissory notes/Stock Certificates.

In Madras in Which the treasuries render classified accounts to the Accountant-General, the direction in this Chapter shall apply subject to such modifications as may be authorised by the Accountant-General, Tamil Nadu, to meet local requirements.

 Treasuries.
- 3. The Posting register.—This is an intermediate register used in compiling the monthly account from the daily accounts.

The Sub-Treasuries need not maintain any Posting Registers nor complies the Sub-Treasury Accounts.

Separate Posting Registers for receipts and charges should be maintained for each Sub-Treasury at the District Treasury. It is not necessary to open separate Posting Register for union transactions and since the transactions are debited to 8,658. Suspense Account SA 27.

The following Posting Registers should be maintained in the District Treasury (viz.):—

- (1) Huzur Posting Register.
- (2) Sub-Treasury Posting Register maintained at the District Treasury.
 - (3) Subsidiary Posting Register.

The procedure for maintenance of the above Registers are indicated below:—

(i) Huzur Posting Register!

This Posting Registers should contain major head totals only of all the vouchers and chalans as the case may be relating to the District Treasury transactions. This register should be written up daily with reference to the daily list Input statement of the District Treasury.

(ii) Sub-Treasury Posting Register !

The Register should be maintained for each Sub-Treasury at the District Treasury with Postings under major heads only with reference to the Daily list (Input statements separately for receipts statements) received from the Sub-Treasuries. At the end of the month, the totals of the major heads in the Sub-Treasury Posting Registers should be carried over to the Higher Posting Register and the District total for each major head arrived also.

(iii) Subsidiary Posting Register:

This register should be maintained in the District Treasury for each major head of Posting the vouchers or chalans as the case may be, relating to the District treasury transactions as well as Sub-Treasury transactions.

Chap. IV] Accounts Returns to be rendered by [Arts, 98-99 Treasuries.

Postings in the charges register should be upto detailed heads in the serial order in which they occur in the list of payments. Postings in the receipt register should be made on a similar line. The register should be written up by carbon process so that one copy may be used for fly leaves. No separate fly leaves need be prepared. The monthly total of each Subsidiary Posting Register should be agreed with the monthly total of Huzur Posting Register which contains the totals of the Huzur Treasury and Sub-Treasuries under each major head.

The Postings should be made daily in a systematic manner and on no account should be allowed to get accumulated. After the agreement of the totals in the subsidiary posting registers with the totals of Huzur Posting Register the closing balance of the previous month in the case of Non-Banking Sub-Treasuries should be added to the Sub-Treasury dosing report should also be added to the grand total in the charges Posting Register. These two figures should agree. In the Posting registers, total should be struck at suitable intervals, say every 3 or 4 days so that on receipt of the extract of classified list for the last day of the month from a Treasury, the Posting registers can be completed and the figures reconciled without delay.

[G.O. Ms. No. 1135/Finance (T. &. A) Department, dated 31st December 1968 and G.O. Ms. No. 1390/Finance (T & A) Department, dated 6th November 1973.]

Note.—The Treasury Officer should prescribed the heads of account to be opend in the sub-treasury posting register. It is not always necessary to have a separate column for every detailed head. The subsidiary registers maintained in the sub-treasury give the total receipts and charges of each detailed head concerned for the month and the totals of those detail heads required for entry in the sub-treasury monthly account can be taken from them. In such cases it is sufficient to post only the totals from the subsidiary register in the posting register.

4. Monthly crassified treasury account.—The grand totals from the posting registers should be posted against the heads in the appropriate classified district treasury account, details of vouchers being given on the expenditure side in the column provided.

There should be a separate account for each department or group of departments as fixed by the Accountant-General and a separate account for the transactions relating to Debt and Remittance heads. The main treasury account should contain only the major head totals of the revenue, service, debt, remittance, etc., heads appear-

ing in the separate departmental and debt head accounts. After all the subsidiary accounts prescribed have been complied and the major head totals therein posted into the main treasury account. The figures in the latter should be totalled and the account closed by effecting an agreement in the State section of the account between the total opening balance of the month plus the receipts during the month and the total of the disbursements plus the closing balance of the month.

In the case of the head "Adjusting Account between Central (Non-Railways) and State Governments", the gross figures in the posting registers for receipts and charges should not be taken separately to the receipt and payment sides of the treasury account. Only the net difference between the totals of receips and payment should be carried to the appropriate side (receipts or disbursements) of the Treasury account.

(Memo. No. 22853/SVI/68-4, dated 22nd May 1968.)

Note 1.—The Treasury Officer should have no difficulty in applying an effective check to the monthly account when it is laid before him. Its opening and closing balances are not deduced from accounts but are statements of fact certified by him separately to have been verified by actual enumeration of coin. He should see that the entries in the monthly account agree with the totals of the subsidiary registers, wherever they are maintained. If at any time, he is unable to compare them he should at least compare some. In particular he should compare the entries in the plus and minus memorandum of deposits, stamps, etc., with the entries in the account. If, for example, the plus and minus memorandum shows a reduction in the stock of pudicial stamps to the value of Rs. 5,000, he should see that there is a crdit of Rs. 5,000 in the monthly account from the sale of judicial stamps, or if the credit is less, that the difference is properly accounted for e.g. by an acknowledgement from another treasury for stamps supplied.

NOTE 2.—In the printed forms of the monthly classified sub-treasury account only such heads as are frequently used are given; when receipts and charges accur under other heads they should be opened in manuscript. To determine the correct heading a copy of the monthly classified district treasury account should be obtained from the district treasury and kept corrected for ready reference. The instruction at the foot of each page of the district treasury account should be carefully noted and observed in classifing items. Special attention should also be paid to the compilation of the appendices and the plus and minus memoranda to be attached to the monthly account

5. Transfer Slips.—The grand totals in the posting register may sometimes require alteration before they are posted into the monthly district treasury account.

In support of each such alteration a transfer slip in Form T.A. VIII should be prepared and signed by the Section head/Sub-Treasury Officer.

CHAP. IV] ACCOUNTS RETURNS TO BE RENDERED BY [Arts. 98-99] TREASURIES.

A transfer slip may have either-

- (i) one major head on the credit side and one major head on the debit side;
- (ii) one major head on the credit side and two or more major heads on the debit side; or
- (iii) one major head on the debit side and two or more major heads on the credit side.

It should not have several major heads on both the debit and credit side.

Care should be taken to see that the debit is supported by vouchers when debited to a charge head and by a properly certified extract from the accounts when debited by deduction from receipts, sufficient to show that the item really exists before it is expunged and that it has not been previously expunged. The credit given by the transfer slip, when given to a receipt head, should be notified to the departmental officer concerned so that he may take credit for it independently in his departmental accounts, and may not remain in ignorance of the credit, until communicated to him or his superior officers through the treasury accounts.

Each transfer slip should be given a serial number and a new series of numbers should be started at the beginning of each month.

When the item is posted in the monthly account the serial number of the transfer slip should be entered against the item and the page of the posting register should be entered on the transfer slip to ensur that one slip is not posted in two places and to facilitate reference.

If the transfer slip affects both charges and receipts, it will affect the grand total of charges and the grand total of receipts. In such cases the necessary plus or minus entries should be made against the grand totals, and these should also be supported by the transfer slip number.

When the entries are completed, the posting registers should be put upto the Section head/sub-Treasury Officer, who should initial all the entries in the posting register affected by the transfer and also initial the transfer slip in token of the fact that it has been duly posted.

Every transfer slip should be posted into the poster's file, unless sent as a voucher to the Accountant-General.

- 6. The Treasury Officer should always personally satisfy himself of the necessity of any alteration in classification which the district treasury proposes to make while compiling the sub-treasury accounts for the month.
- (7) Salient Instruction for preparation of Sub-Accounts.
- 1. Printed copies of blank sub-account forms were already supplied in respect of all sub-accounts. Compare the Heads of accounts printed both receipt side and payment side with reference to the Budget copies (Revenue Receipts Demands for grants for 1992—93) and that heads of accounts in the Sub-accounts are in confirmity with the Budget book. Even the Budget code letters were properly corrected wherever necessary in the sub-Accounts.
- 2. Any correction, or change of Head of Account or new head of account opened in the sub-account the relevant page number of the Budget book should be noted as authority for opening the head of account.
- 3. Under any circumstances new Head of account or any Head of account which is not available with Budget copy should not be written in the sub-account without noting proper authority.
- 4. Similarly, the Budget copies should be compared with carefully with the heads of accounts noted in the sub-account or with the Fly leaf prepared by the compilation accountant see whether the Government have provided funds for that particular head of account in column funds allotted for 1992—93. When there is no funds available, that particular head of account should not be operated at all. Immediate instructions should be given to the A.T.O./S.T.O./Superintendents not to pass such bills without allotment of funds for the year 1992—93.
- 5. Extra care, should be taken to classify the "plan and Non Plan heads" strictly in accordance with the Budget copies.
- 6. The sectoral arrangements should be strictly adhered to. Whenever new heads are written in the sub-account, it must be in the order as printed in the Budget Book. The Heads of Accounts should not be written in the Blank space available any where in the sub-account.

The column "Payment at Sub-treasury" is provided under "Orders issued" in order to give space for marking off paid orders and ascertaining whether the total of the orders outstanding agrees with the balance on the books. The balance month by month (the difference between the sums of the two columns of daily total) should be carried forward to the new month to the column "Daily total" under "Orders issued". Under "Orders paid", the entries should be made in the order in which the paid orders are received back from the Sub-treasury without reference to the period of issue, and the total should be agreed with the total charge in the Sub-treasury account; the payment should at the same time be marked if in the issue columns from the original paid orders. The orders may be numbered in a general series for the whole district, but those on each Sub-treasury must also be numbered in a separate annual series. The column "Value how received" is intended for remarks denoting cash or transfer.

A separate column on each side should be assigned to each account in which the daily gross receipt and gross charge should be entered from the personal ledger. Thus there should be but one single line in this register for the transactions of all personal ledger accounts each day and its gross total should give the figures to pass into the cash book. A page of foolscap has probably breadth enough for nine such accounts if there be more than one page can accommodate, either the two sides may be separated into different parts of the same volume, the same columns being carried across both pages, or more than one register may be opened, and the totals of the second, third, etc., carried into separate columns of the first.
